

WEI YANG

7440 Riverside Station Blvd, Secaucus, NJ 07094 • (551)260-0541 • hey.weiayang@gmail.com

SUMMARY

Full-Stack Software Engineer with experience in enterprise content management systems, enterprise search platform integration, and database-supported web applications. Skilled in software development, system integration, and requirements analysis using Adobe Experience Manager, Java, Python, and SQL in production environments.

EXPERIENCE

PiSrc, New York, NY

Full-Stack Software Engineer

02/2022 - Present

- Analyze business challenges and develop software licensed for use on content management systems to facilitate content authoring and publishing, including implementation on Adobe Experience Manager
- Develop enterprise content management systems that integrate with enterprise search platforms, Product Information Management systems, marketing, and ecommerce platforms
- Gather business requirements and users' experience preferences for software and application design
- Build software infrastructure and decouple software components to ensure efficient software development and maintenance
- Provide database management and maintenance to existing software applications and analyze operational capabilities of systems to identify improvement requirements
- Create technical documentation for reference and reporting
- Perform quality assurance tests and detect bugs to ensure reliability and performance of application services

Stevens Institute of Technology, Hoboken, NJ

Research Assistant/Teaching Assistant

06/2020 - 12/2021

- Cleaned and structured earnings call transcript datasets for text analysis and modeling
- Conducted text classification and sentiment analysis using natural language models implemented with PyTorch
- Applied natural language processing techniques using SpaCy and NLTK
- Managed Linux-based computing environments supporting machine learning workflows
- Assisted in preparing instructional materials related to deep learning implementation using Python

SKILLS

Programming Languages: Python, Java, JavaScript, Shell Script, SQL

Database Management Tools: PostgreSQL, MySQL, Microsoft SQL Server, MongoDB, Elasticsearch, Apache Solr

Technology: Adobe Experience Manager, MuleSoft, Docker, Linux, Azure Cloud, AWS, Git

Python Packages: Pandas, NumPy, Scikit-learn, PyTorch, Transformers

EDUCATION

Stevens Institute of Technology, Hoboken, NJ

08/2019 - 12/2021

Master of Science in Data Science, GPA: 3.8/4.0

Relevant Coursework: Database Management Systems, Web Programming, Web Mining, Advanced Optimization Methods, Statistical Inference, Advanced Machine Learning, Deep Learning, Natural Language Processing

Scholarship: Provost's Scholarship, 2019

Guangzhou University, Guangzhou, China

09/2014 - 05/2018

Bachelor of Science in Mathematics

Awards: Second prize (out of 25,558 teams) in National Mathematical Modeling Contest, 2015
